POLLEN ORGANICS MAKE EATING IN THE NEW EATING OUT

From their Hampshire kitchens, husband and wife owners, Richard and Christianne Pollen, work with their dedicated team to create a selection of organic sauces, pestos, mayonnaises, dressings and relishes. The recipes are inspired by Christianne's genuine love and understanding of food and are made in small batches to ensure the absolute ultimate in taste and quality.

With Pollen Organics products anyone can quickly and easily create delicious feel-good food for a simple lunch, family meal or dinner with friends, with the goodness and honesty expected from the very best home cooking. And unlike eating out and ready meals, using Pollen Organics means that to enjoy really delicious food does not cost the earth – the perfect antidote for recessionary times.

Pollen Organics uses only the very best organic ingredients, sourced locally where possible, from farms and growers that share its integrity. Working with respect for the environment, its suppliers and its customers are all factors which Pollen Organics believe go hand in hand with producing food of the highest nutritional value and superb flavour.

Nothing is included in the products that would not be found in your own fridge or larder (additives, colourings and preservatives are never used) making them as near to homemade as you can get. Pollen Organics is for those who care about what they serve and do not want to compromise.

All Pollen Organics products can be found at good deli's, farm shops and high end grocers (Fresh & Wild, Planet Organic and Harrods stock a wide selection), as well as selected products being available in Waitrose, Morrisons and Co-Op.
